- Python OOP
- Django
- SQL
- PostgreSQL
- Git Hub

## EDUCATION

| University | 2022 - 2026 |
|---|---|

**International Information Technologies University**
Information System

## ABOUT PYTHON AND MY SKILLS

**Python Developer**

About Python and My Skills
I started learning Python in 2023 and have mastered it at a basic level. I can write simple scripts for task automation and work with essential frameworks (Django).
My skills include:
- Working with data analysis libraries (Pandas, Matplotlib)
- Creating simple web applications
- Automating processes using scripts
- Understanding the basics of algorithms and data structures

**Django**

I started learning Python in 2024 and have mastered it at a basic level. I also gained experience working with the Django framework. I have projects hosted on GitHub that showcase my skills and progress in programming.
